BENCHMARK WINDOWS

## THE TRADITIONAL LOOK OF TIMBER THE DURABILITY OF ALUMINIUM

All the classic features you love about timber windows, Jason has recreated in the superb BENCHMARK series of Awning windows. Wide strong frames that look and feel as substantial as traditional timber. Mitred beading. Individual panels of bevelled glass in exciting glazing options. The perfect choice to coordinate with BENCHMARK hinged doors for maximum visual appeal.

### JASON PRODUCT FEATURES

#### SECURITY

The chain winding mechanism incorporates a Keylock facility.

#### STRENGTH

Sturdy frame design maintains minimum frame width of 75mm. Designed specifically for cavity brick construction and aligns perfectly with all other Jason products.

#### RANGE

Awning windows can be positioned side by side or stacked on top of each other, which when combined with fixed lites produce a broad selection of options. Glazing bars can be positioned to accommodate your design requirements.

#### COUPLERS

A full complement of couplers provides a neat and appealing window to window, window to door alignment.

- 180 degree straight coupler accepts 60mm (od) steel column
- 135 degree bay coupler accepts 60 mm (od) steel column
- 90 degree corner coupler accepts 60mm (od) steel column

#### PERFORMANCE

Products are designed to meet the performance criterion as stipulated in AS 2047 and tested by NATA approved agencies. As a member of the Australian Window Association products are subject to third party audits designed to ensure that the product matches the publicised test results. Performance labels are permanently placed on all windows to confirm the structural rating and the water performance capabilities.

#### WEATHERPROOF SEALS

Weather proofing design includes double seals for added protection against the elements. Tested products have easily achieved the ratings as nominated in the Australian Standards.

#### PLASTER STOP

Jason's unique Plaster Stop minimises cracking and reduces the cost of maintenance.

#### COLONIAL BAR

A choice of either the integral glazing bar or a stick on application are available. The integral bar enables different glass substances and bevelled glass to be incorporated in the product design.

#### GLAZING

Glazed externally incorporating high tack pressure tape adhering the glass to the frame on contact. The best in water proofing performance without compromising security. The Benchmark series windows offer a vast range of glazing options, single pane, double pane, security glass and toned glass to support your home's energy efficiency.

#### BUILDING-IN DETAIL

Twist-in lugs to the internal and external brick course provide added strength and enduring frame fixing.

#### QUALITY

Certified to ISO9001. Audited bi-yearly to ensure compliance.

Dual weatherseal design

Individual glazing system

Twist-in frame fixing ties

TEN YEAR WARRANTY
