

JASON WINDOWS

DOUBLE HUNG WINDOWS

SETTING THE STANDARD

DOUBLE HUNG WINDOWS

THE CLASSIC LOOK & FEEL THE ELEGANCE OF ALUMINIUM

Double Hung windows are simple and functional in design. Ventilation is easy to regulate as top and bottom sashes can be opened as much or as little as needed for excellent air circulation, allowing warm air out the top and cool air in below.

Locking systems are generally keyed alike (one key fits all)

Clip-on external moulds

Ventilation is easy to regulate as top and bottom sashes can be opened

JASON PRODUCT FEATURES

STRENGTH

Sturdy frame design maintains minimum frame width of 75mm. Compatible with all Jason Window products.

PLASTER STOPS

Jason's unique Plaster Stop minimises cracking and reduces the cost of maintenance.

FLYSCREEN

Flush fitting full-length flyscreen. Extruded section for added strength.

SPIRAL BALANCE

Counterbalanced with top quality spiral spring balance ensuring smooth and effortless operation.

EXTERNAL FRAME MOULDING

A clip-on mould provides a perfect window to cladding alignment for frame/clad construction. Specifically designed to compliment Cedar, PVC and Hardie Plank external cladding systems.

KEYLOCK

A keyed cam-catch lock is a standard feature on all Double Hung windows. Locking systems are generally keyed alike (one key fits all).

SASH STOPS

Top and bottom sash stops prevent damage when operating sashes.

COLONIAL BARS

Choose either a chamfered or flat profile Colonial Bar that is precisely cut to provide the effect you are looking for.

COLOURS

Thinking of colour? Jason offers a large range of decorator colours that can be co-ordinated with windows and doors for a total 'look'. They are available in gloss or matt, using the latest powder coat finish oven cured, to give lasting beauty and durability. The final effect can be enhanced with the use of toned glass - the choice is yours.

STANDARDS & COMPLIANCE

Products are designed to meet the performance criterion as stipulated in AS 2047 and tested by NATA approved agencies. As a member of the Australian Window Association products are subject to third party audits designed to ensure that the product matches the publicised test results. Performance labels are permanently placed on all windows to confirm the structural rating and the water performance capabilities.

QUALITY

Certified to ISO9001. Audited bi-yearly to ensure compliance.
