## STACKING & BIFOLD DOORS

### STACKING & BIFOLD DOORS THE POSSIBILITIES ARE WIDE OPEN

Aluminium Stacking and Bifold doors provide versatility giving your home the feeling of space, providing ease of operation and require minimal opening area. The advantage of these doors is their flexibility to be used to open up confined areas and improve the versatility and functionality of your living environment. Letting in an abundance of natural light and ventilation they offer easy access to the garden, terrace, patio or covered relaxation areas.

#### STACKING DOOR PRODUCT FEATURES

##### SECURITY

Mortised deadlock concealed inside the door providing added protection against the would be intruder. Features include: internally and externally keyed, self latching, internal snib deadlock, stylish colour co-ordinated pull handles.

##### STRENGTH

A range of load bearing, interlocking mullions are available to withstand windloads ranging from the minimum requirements through to extreme cyclonic weather conditions. Features the exclusive slot rail system to prevent water penetration.

##### COMPONENTS

All components are manufactured from non-corrosive materials. Door rollers feature height adjustable stainless steel cage ball bearings for smooth, long life operation. Stainless steel screws are used throughout.

##### RANGE

Choose between two, three, four and six panel stacking doors to a maximum width of 6.5 metres, all of which can be tastefully coupled to window combinations to create a window wall.

##### PERFORMANCE

Products are designed to meet the performance criterion as stipulated in AS2047 and tested by NATA approved agencies. As a member of the Australian Window Association products are subject to third party audits designed to ensure that the product matches the publicised test results.

##### QUALITY

Certified to ISO9001. Audited bi-yearly to ensure compliance.

Stacking doors offer space saving qualities

Stylish built-in Mortised Deadlock

#### BIFOLD DOOR PRODUCT FEATURES

##### SECURITY

Mortised deadlocks with stylish handles that are available in selected colours and are internally and externally keyed. Concealed flush bolts unobtrusively secure the door leaves at the top and bottom of the frame.

##### GLAZING

Glazed externally incorporating high tack pressure tape adhering the glass to the frame on contact. The best in water proofing performance without compromising security. The Bifold Door may incorporate a vast range of glazing options to enhance the performance and comfort characteristics of your home.

##### COLONIAL BARS

A choice of either the integral glazing bar or a stick on application is available. The integral bar enables different glass substances and bevelled glass to be incorporated in the product design.

##### RANGE

Bifold doors may include up to six bifolding panels covering a width of 4.6 metres. An advantage of the door system is that you are able to nominate an active door leaf for easy accessibility.

##### QUALITY

Certified to ISO9001. Audited bi-yearly to ensure compliance.
